

What is Closing the Loop?

Buying products made from recycled materials is a key step in supporting recycling programs and conserving resources. The loop starts when you place materials into your curbside recycling bin. Once the materials are collected and sorted, they are sent to business that can use them. These businesses process the recyclables into new products. Resources are saved only when you purchase these products made from recycled materials. This is referred to as "closing the loop."

While shopping, take the time to look at product labels to see whether the product or the packaging contains recycled content. For the biggest impact, buy the products with the highest percentage of recycled content.

BUYING RECYCLED PRODUCTS...

- **CONSERVES NATURAL RESOURCES**
- **SAVES ENERGY**
- **REDUCES SOLID WASTE**
- **REDUCES AIR AND WATER POLLUTION**
- **REDUCES GREENHOUSE GASES**

Excellence in Textile Recycling

Through Chesterfield's annual recycling drives, our city has helped make possible our regions first 100% post-consumer recycled-content rag bond, tree free paper. Visit www.archpaper.net for more information and to 'close the loop'.

Lowe’s

Element – soaker hoses

Re-Play – rubber mulch, composite decking

Stainmaster – polyester carpet

Midwest Floor

Shaw and Mohawk – carpet and carpet pads

SECOND HAND PRODUCTS

You can help the environment, support local charities and save money by purchasing all sorts of used products at second hand stores. Similarly, by donating or consigning used items you keep them out of landfills and save the resources that would have been needed to manufacture them new.

Purchase Reusable Items from area Goodwill, Plato’s Closet, or Savers stores.

We all have heard about the 3 R’s...

But, the 3 R’s don’t completely “Close the Loop”!

We need all 5 R’s to “Close the Loop”!

Please consider...
