Re: Creative Arts Alliance Art Location Recommendation

This past weekend at our Parks, Recreation and Arts Citizens Advisory Committee meeting we discussed art locations for the art work that we will be getting from the Creative Arts Alliance draft that was held on February 26 at the Chesterfield City Hall. We ended up drawing the fifth round draft position, but we were able to get the Parks, Recreation and Arts Advisory Committee's first choice named Saturday's Distraction's by Lee and Sherry Treeby. With ample discussion and several votes taking place, the Parks, Recreation and Arts Citizens Advisory Committee came up with the following location at the Chesterfield Valley Athletic Complex. They are recommending to install the art work near the Catch 22 Miracle Field and the B concession stand in a raised flower bed. A picture of the sculpture is below, along with a map with a red X on it that shows you where the piece is recommended for installation.

I would like to request that this information be forwarded to the Parks, Recreation and Arts Committee of Council for their review and direction to move it to the full Council for approval at the meeting on March 19, 2018.

We would look at an installation date sometime in early May if we get the approvals from the Committee and Council.

Please forward
to PR&A Committee
for approval & direction
