SUBJECT: Residential Sewer Lateral Repair Program

As you know, we contract with Tope Inc. for the video investigation and repairs related to our sewer lateral program. We continue to be very pleased with the performance of this contractor. They are very responsive, and the quality of their work is outstanding. We have a good working relationship with them.

This contract expires at the end of this year. Based on the above, we would like to extend the contract with Tope Inc. for one more year. Per the attached letter, they have agreed to extend the contract for one more year, at the current contract price. City Attorney Rob Heggie was consulted, and stated that this contract could be extended for one more year, so long as the contract prices remained the same.

Therefore, we request that this issue be placed on the next agenda of the Planning & Public Works Committee for their consideration.

If you have any questions, or need any additional information, please let me know.
