To: Cassandra Harashe <CHarashe@chesterfield.mo.us>  
Subject: NO Car Wash on Baxter & Clayton

I have lived & enjoyed living on Clayton Road now for eleven years & do not want the traffic a commercial business such as a car wash would cause here. Due to the commercial atmosphere at Clayton & 141, that area is better suited but still an ugly addition to Clayton Road. Please stop considering doing the same thing to a mostly residential area at Baxter.

Surely those of us who live here & must contend with the traffic & unpleasant change to our beautiful part of Clayton Road can keep what we have now & not change it with a car wash!

To: Cassandra Harashe <CHarashe@chesterfield.mo.us>  
Subject: Briteworx Carwash

Good Morning Cassie,

I am a resident of Woodfield Condominiums and I want to express my concerns about the Briteworx Carwash proposal on the corner of Baxter and Clayton. I believe the level of cars/traffic to the area would be of great concern, already there are numerous times when cars enter our subdivision only to do a u turn, there are also numerous times when cars leaving said station want to travel north on Baxter and due to the island can't so they just go the wrong way for the 50 or so yards the island is there, it is quite a scary sight. That is just one of the concerns, the water run off is of particular concern to us in the residents, already we are a low spot for all of the rain spill, there is a natural path from Clayton, Chesterton lane homes and the top of Baxter road, adding to that may up our water table so high it could prove to be a real and consistent is issue. The noise concern is so obvious is could go with out being mentioned, we are a small quiet community or many retired and this would be an annoyance to say the least.

Thank you for your consideration,

Cecily

Subject: NO to Car Wash at Baxter and Clayton

Hi Cassie,

I am emailing as a concerned neighbor of the idea of a huge car wash at the intersection of Baxter and Clayton. I am absolutely opposed to the idea and for the sake of the neighborhood (I live in Claymont Estates), please help us to not let them build such an eyesore that would have negative effects on the traffic and more in the neighborhood.

Thank you,

Carrie Allesi

Subject: Briteworx

I am not a resident of Chesterfield, but I live very close (Wildwood). I drive past Clayton and Baxter daily. I cannot think of anything worse than this (eyesore of a car wash) at that location. Traffic is already a nightmare during peak times! Also, this area is surrounded by car washes. Waterways at Woods Mill and Clayton and Olive and Swigley - now a Tidal Wave on Long road - not to mention the numerous gas stations with a wash. Enough already. NO to Briteworx!!

Sent: Friday, July 14, 2017 5:36 AM  
To: Cassandra Harashe <CHarashe@chesterfield.mo.us>  
Subject: Briteworx Carwash at the intersection of Baxter & Clayton Rds.

We are opposed to the construction of the Briteworx Carwash at the intersection of Baxter & Clayton Roads. The congestion that it would bring to an already busy and crowded intersection would be harmful to our community. This business would not be in keeping with the neighborhood ambiance. We don't want Clayton Road to become another Manchester Road with more traffic issues, crowding, and unsightly commercial buildings. We have enough issues with traffic as it is.

Thank you for hearing our concerns. We love our neighborhood and would hate to see it be diminished by this project.

To: Cassandra Harashe <CHarashe@chesterfield.mo.us>  
Cc: Mike Becker <>; Berger, Dean & Debbie <  
Subject: Briteworx car wash application for zoning at Clayton/Baxter

Cassie...

My name is Mike Becker. I have lived in the Chesterfield area since 1972 [with a couple of stops in-between]--Meadowbrook Farm, Scarborough West, and The Forest. I am currently living near the intersection of Clayton and Meadowbrook Country Club.

During this time I have witnessed many changes in the areas growth and development....usually planned and controlled by appropriate zoning, as we were here 'pre-Mall'. Clayton was a sleepy lane back then.

The proposed Briteworx development appears to me not to fit the model for that area of Clayton Road, even with the current growth. It seems more suited for higher density commercial areas like Manchester Road. That corner of Clayton Rd. is currently dotted with high traffic businesses. I understand that the City of Creve Coeur Planners have already disapproved a similar Briteworx project for their community. If it does not fit Creve Coeur why would it fit Chesterfield?

Having discussed this with other residents we have concerns that;

- 1 The traffic density and congestion would be too great
- 2 Traffic and personnel safety would be a problem
- 3 Sufficient access and egress do not currently exist and would require significant reconfiguration and expense. If unchanged, traffic would probably infringe on neighboring residential streets.
- 4 Noise and lighting would most probably be a neighborhood nuisance
- 5 The appearance of the proposed property does not appear to meet the character of the surrounding area
- 6 If re-zoning or the like is granted, would that set precedent for further similar development?
- 7 Does this replace the Mobil Station?..if so are there issues of oil/gasoline/petroleum waste at the site?
- 8 Is this really necessary....other car washes exist in the community?

Lets keep Clayton Road density from becoming too overtly commercial. There is already a Manchester Rd.

Thanks  
Mike Becker

Subject: Brite-WorX at Clayton & Baxter Road!  
Importance: High

Hello Mayor Nation, Dan, Randy and Cassandra,

I moved to Brandywine condominiums on what would become Old Baxter Road in 1974, 43 years ago! It's hard to believe that that property was in an area to soon become the City of Chesterfield! There was no Old Baxter road; it was just Baxter Road.

In 1984 my husband Brian and I bought a house in Plat 2 of Meadowbrook Farm. Over these many years I have seen many changes at the intersection of Clayton and Baxter roads. After reading Dick Goldbaum's letter to the editor of West News about putting a huge, contemporary car wash at the northwest corner of Clayton and Baxter, I decided it is time to get involved.

My husband Brian and I think a Brite-WorX car wash will degrade Clayton Road as it peacefully flows through Chesterfield. Not only will it be gaudy by comparison to existing structures along Clayton Road, the traffic, as 300 cars per day just for the car wash, will be horrendous! I rarely travel to Clarkson on Baxter; everything I really need on a daily basis is between Baxter Road and 141: Walgreens, Wellbridge, Whole Foods, my bank at Schnucks, Ace Hardware, the post office and UPS, are ALL on that little stretch of Clayton Road. I abhor the thought of more traffic!

Please consider the effect of a gaudy, noisy car-wash on the look of Clayton Road as well as the effects it will have on existing residents and travelers of Clayton Road. Think of the NOISE and the reduced property values of those who live in close proximity! Yikes!!!

Think of the TRAFFIC with the expected 300 cars per day at the wash! I do NOT LOOK FORWARD TO AN EXTRA 15-30 minutes waiting in line at that intersection! Plus, I would have to LOOK at this gaudy place!

I respectfully ask you to deny a permit for building a gaudy, noisy Brite-WorX car wash at Clayton and Baxter. Imagine your traveling in this area! We have a perfectly good, tastefully designed, unobtrusive car wash at the corner of 141 and Clayton Road. It blends with the background, as such a functional place should. We have two car washes at the corner of Clayton and Baxter already! WE NEED NO NEW GAUDY, NOISY HUGE CAR WASH at Clayton and Baxter.

As for the idea of enlarging the Mobile station to include a 24 hour convenience store, that too, will be NOISY and it will reduce the property values of close neighbors. When I mentioned the 24 hour convenience store to my husband, he exclaimed, "THAT will bring CRIME!"

**A brand new St. Louis wash that'll have your car clean as a whistle for less than \$1 a day!**

BriteWorX Car Washery Now Open!

Mayor Nation, I respectfully ask you to deny access to the northeast corner property of Clayton and Baxter for the development of a NOISE machine called Brite-worX.

Attached is a scan of part of the article with name of the planning project manager person to call, Casandra Harashe, at Chesterfield. Her number is: 636-537-4000. Her email is above.

Mayor Nation, Dan, Randy and Casandra, kindly reply to all with the date and time of your next open meeting! We want to speak up for extending the sanity of our corner of Clayton and Baxter.

Many thanks! I hope you have a wonderful day!

Joy

Cassie ,Members of the Chesterfield Planning Commission, Ward III Councilmen

Re: Zoning for Briteworx car wash

I'm writing in opposition to the rezoning of the land parcels at the corner of Baxter and Clayton Road, the current location of an older Mobil Gas Station.

I have been to the planning commission meetings as well as the presentation by Wallis Company to our residential community of Woodfield. I also have visited the current site of the Briteworx in Florissant and the proposed Briteworx in Creve Core.

I have been part of the effort to spread the word of this development and co-authored the attached letter that I am sure you have seen before. In the letter we highlight the major reasons why we oppose such a change. All the reasons are sound; we truly feel that allowing this development will adversely affect our neighborhood; traffic, noise, drainage, aesthetics, they are all-important to us.

Of the many people we have talked with, both in person and through the neighborhood news blog, the only positive comments about the development, and there were only a few, was that it would replace the old poorly maintained Mobil station that is currently on the site.

Two comments about that:

- 1) The company that currently owns the property is the same company wanting to build the Briteworx.....if the current state of the Mobil is any indication of how they maintain their property we certainly don't want them as neighbors
- 2) I understand that when the Wallis Company bought the property from the previous owner it had been already been rezoned for a newer more up to date Mobil-on-the-Run station. That appears to be a better utilization of the property with less disruption to the neighborhood.

Please keep the neighborhood in mind when considering this request for rezoning.

Regards,

Dean Berger

2457 Baxton Way

636-227-7773

Dear Commissioners:

The purpose of this letter is to convey the position of the residents of Woodfield Subdivision to the proposed development of a Briteworx Carwash adjacent to our subdivision. Our subdivision consists of sixty-six units occupied by well-informed active residents. At our semi-monthly homeowners meeting on June 14, we thoroughly discussed the proposed Briteworx Carwash. As a result of those discussions, several of the owners went door to door to poll all the units in Woodfield. That poll resulted in signatures from 53 of the 66 units in opposition to the Briteworx proposal. No resident was in favor of the development. The balance of the residents were not available at the time of the polling. Consequently, the overwhelming conclusion is that the residents of Woodfield are against the petition to change the zoning at the corner of Baxter and Clayton Roads to allow the construction of a Briteworx Carwash.

The following are our predominant reasons for our opposition:

#### Noise

The proposed carwash will have 15 vacuum stations along with the large blowers for the tunnel car wash. The proposed hours for this operation are between 7am and 8 or 9 pm every day, including Sundays. Even if the vacuum motors are housed inside, when the vacuums are activated there will be an unreasonable disturbance created for the residents of Woodfield. We have not been informed of the decibel levels created by this operation. We respectfully request that the petitioner be required to provide an appropriate noise study to the Commission/City, and provide us with a copy. We are confident that such a study will clearly show that the proposed carwash will create unreasonable noise levels each and every day of the year.

#### Water Run Off

We are extremely concerned that additional water run off will add to an already existing problem within Woodfield. We are aware that MSD will have input with respect to both stormwater and wastewater issues relating to the development. However, we continue to believe that the development will generate excess storm water, and that the volume of wash water, combined with carwash chemicals, (detergents, waxes and protectants) will adversely affect the sanitary sewer system in our area. Additional air pollution will be created since the proposed 300 cars/day will be running their engines while they go through the carwash tunnel versus turning the engine off when refueling.

#### Traffic

Baxter Road and Clayton Road are both part of the County Arterial Road System (ARS). The proposed car wash, in the northwest quadrant of the intersection of these two arterials, will undoubtedly add to this traffic at this congested intersection, especially at certain times of the day, notwithstanding petitioner's claim that there will be fewer visits to the car wash than to the gas station/convenience store.

It is our firm position that the majority of the estimated 300 cars per day will be additive

because those customers will view the car wash as a destination, while customers of the gas station/convenience store are stopping because it is just that, a convenience to those already passing the gas station/convenience store.

The final traffic issue which is of great concern to Woodfield residents is that, because of the medians on Clayton and Baxter Roads, carwash customers travelling North on Baxter or East on Clayton, will turn into Woodfield to make a U turn and proceed south on Baxter to enter the carwash. Woodfield streets are private and maintained by the Homeowners Association. In addition to the obvious danger to Woodfield residents entering and exiting our subdivision by these U turn movements, all increased maintenance costs, such as curb repairs and sign replacements, will be borne by Woodfield residents.

#### Harmony with Surrounding Area

The Briteworx building as shown on the Chesterfield submittal and the existing building in Florissant, do not blend well with the surrounding buildings and residences. The newer buildings, such as Walgreens and the Homestead Mortgage company are brown/beige brick with subdued signage (these were issues addressed with Walgreens at the time that development was proposed). The Briteworx carwash is white with a brilliant blue sign and multiple lights.

Also, the sheer size of the Briteworx unit at 27 feet placed on top of a 22 foot retaining wall will dwarf the adjoining homes in Woodfield. All Woodfield residents will be severely impacted by such an intrusive disproportional structure.

#### History

Although we are aware that every zoning petition must be considered on its own merits, the Woodfield residents cannot help but wonder why they were required to expend so much time and effort on the rezoning of this parcel in 2008-2009, only to have to again protect their subdivision in 2017. It is our firm position that a use such as a Mobil-on-the-Run is a much more appropriate use of the space than a single use carwash. There would be: less noise, less runoff, less chemicals, less traffic, less disturbance to the neighborhood and more continuity with the surrounding developments.

#### Conclusion

For all the reasons stated above, the residents of Woodfield respectfully request that the Chesterfield Planning Commission deny the request to allow the Briteworx carwash development at the northwest quadrant of Clayton and Baxter Roads.

Subject: FW: Britewash carwash

From: Debbie Berger [mailto:  
Sent: Tuesday, May 09, 2017 3:59 PM  
To: Cassandra Harashe <CHarashe@chesterfield.mo.us>  
Subject: Britewash carwash

Cassie,

I was wondering can we email the members of the zoning committee with our concerns about this carwash? If so how do we get their names and email addresses. I have not been able to find them on the internet. Or do we send the emails to you and then you forward them?

Many people in our subdivision are elderly and could not make the meeting.

And I want to stress the point that the Wallace company told Woodfield at a meeting on Nov. 15 they expected 300 cars to use the wash on any given day. There is no way to silence the tunnel carwash. They say they can silence the self vacuums but we have no Briteworx to show us an example. It will be constant noise all day long for our residents.

Any help would be appreciated, thank you,

Debbie Berger

To: Cassandra Harashe <CHarashe@chesterfield.mo.us>  
Subject: Briteworx Carwash

Cassie,

Would you please forward to the zoning committee members our concerns about the Briteworx carwash.

Committee members please do not change the zoning for the Mobile Station. In a meeting that Woodfield had with the Wallis co. They expected on any given day to have 300 cars using the carwash. This will give us constant noise from 7:00am until 8:00pm. We feel a 24 hour gas station would be less offensive. Less noise and a more pleasing appearance.

The Briteworx on Lindbergh has customers listening to loud car radios while vacuuming their cars and an entrance speaker that you talk into to "order" your carwash. The architecture also has a 27 foot tower that already exceeds the height limits of Chesterfield. We are also concerned with water runoff.

Why change the zoning for this large operation that clearly belongs on a larger thoroughfare such as Manchester or Lindbergh?

The Baxter And Clayton commercial intersection is surrounded by homes and schools. Please let us keep our neighborhood ambiance.

Sincerely,

Dean and Debbie Berger

Cassie

If you could forward this to the planning commission and anyone you feel might have input in this decision? Thank you so much for all the work and help you have given to my wife and I .

Thanks  
Dean

Planning Commission

I want to express my feelings about the proposal to replace the Mobil on the Run with a Briteworx Car wash.

I have been a resident of Chesterfield for most of my adult life and always felt that Chesterfield tries to do what is best for the residents and takes into account the neighborhood that is effected by such changes.

Allowing a Briteworx car wash at the corner of Baxter and Clayton will do nothing but upset the tranquility of the neighborhood. A simple look at the existing car wash on Lindbergh shows you this enterprise does not architecturally fit in with the surroundings. On top of that we add the noise factor with comes from not only the tunnel wash and the 15 vacuums but the people noise that accompanies that much activity.

Then there is the traffic, The BW people say that this will be less that that generated by a Mobil, but I have to disagree. The tunnel wash will be a destination for the majority of its customers while the Gas and Convenience store draws most of its customers from the existing traffic, people driving by in the normal course of the day. I view most of the tunnel wash traffic as additional cars, those making a specific trip to get their car washed.

I know you've been told of the numerous car washes within only a minor distance, we do not need another. I do realize that there is another Gas and Convenience installation on the SW corner, but with the road medians that are in place now, that site is almost impossible to legally enter when heading south on Baxter or West on Clayton. Those drivers could easily access a Gas and Convenience store on the NW corner.

Please, when making your recommendations, keep in mind the residents most affected by this change.

Respectfully

Dean Berger

Subject: Proposed BriteWorX Carwash

Dear Residents-

FYI: it was brought to my attention this morning that a proposal is currently before the Chesterfield Zoning Commission to approve the building of a BriteWorX Carwash on the northwest corner of Baxter and Clayton (where the Wallis Mobil gas station is currently). The developers project that 300 cars will patronize this business every day.

Of the many concerns voiced in the link to the letter below is the potential traffic from exiting at the neck down on Westbound Clayton from two lanes to one just prior to our street entrance.

Here is more info on the proposal and a photo: <https://westnewsmagazine.com/2017/05/24/80959/save-clayton-road>

We missed the Public Hearing which was held on Monday, May 8, 2017. Attached are the minutes of this meeting- there were 13 speakers in opposition in attendance.

I have cc'd Cassandra Harashe from the City of Chesterfield. Cassandra, can you tell our Chesterton Lane residents any more than what's here? What is the current status? Is there another public hearing scheduled to be held?

Thanks

Jeff

Subject: Clayton Road Car wash

Hi Cassandra,

I'm writing to add my voice to the opposition of the building for a new large car wash on Clayton Road. This area is filled with homes and schools. Adding something so garish and large and loud will only commercialize our neighborhood. We don't need a huge car wash here. There are plenty on Manchester Road. Don't turn our intersection into a Manchester Road look alike, please.

Thank you for your consideration.

Subject: Car Wash @ Baxter & Clayton

Dear Sirs:

I live @ Clayton & Baxter's south side in back of Wallgreens & Bank of America!

There is an exorbitant amount of traffic @ this intersection all day long.

I cannot imagine putting a car wash there with no access to Clayton Rd except going West & no Access to Baxter except on Baxter by a shopping center!

The Middle School is not far down the road. Numerous Middle schoolers walk the road on Baxter N & S and on Clayton E & W. In the mornings & after school.

I believe that this is an extreme safety issue for those children as well as all home owners in the 2 mile radius around this new planned project! The sight is actually very small for this car wash!

I am appalled that the city of Chesterfield would permit such a project! The Phillips 66 at the SE corner of Baxter & Clayton had to do numerous landscaping & set back further than it wanted to to protect the neighborhoods surrounding!

My husband & I are totally against this project moving forward!

Please put this car wash elsewhere! We have incidents at this area daily!

Thank you!

I'm a chesterfield resident and am not interested in having this car wash at this location. It's a congested intersection anyhow. Too many cars will be coming through and it is not a good idea.

Thanks for listening

Karen coombs

## Briteworx Carwash at Baxter & Clayton intersection

We want to remind everyone about the rezoning for a Briteworx Carwash at the intersection of Baxter & Clayton Rds. The Wallis co. has not gotten back to Chesterfield yet in response to the questions posed at the May 8 meeting. But we need to continue to voice our concerns. Traffic congestion is a main concern along with water runoff, noise and light pollution. The Briteworx architecture is not compatible with the neighboring businesses, homes and schools. The tunnel carwash has a 27 ft. tower and 15 self service vacuums. The Wallis co. Has predicted 300 cars a day will use the facility.

It will help if you voice your concerns to Cassie Harashe at [charashe@chesterfield.mo.us](mailto:charashe@chesterfield.mo.us) and Justine Wyse at [jwyse@chesterfield.mo.us](mailto:jwyse@chesterfield.mo.us).

There are plenty of car washing facilities within one mile of this purposed location. I can name at least 5 . Three are self service and 2 have full service. We do NOT need anymore. Also one closed on Manchester Road due to not enough business. There is no waiting at most all of the 5 remaining . What a dumb idea to open another and have it stand empty and closed in about a year.

Subject: Car Wash

To whom it may concern:

My name is Regina Davidson and my address is: 101 Calico Lane, Ballwin MO 63011

I live 0.8 miles away from the corner of Baxter and Clayton Roads where the proposed Brite Wax station is to be built. I consider the intersection of Clayton and Baxter an important part of my neighborhood. This massive carwash at that intersection would have an extremely negative impact on my daily life. MANY Ballwin residents will be affected, not just Chesterfield residents.

I am also concerned about the flow of traffic, and the safety of our children who are walking, biking and running cross-country through that perilous, already-choked intersection.  
I am urging you to please not built there.

Regina Davidson

Subject: car wash at the corner of Baxter and Clayton

Hello,

I wanted to send an email to let you know my opinion, both personal and professional, about the proposed car wash at Clayton and Baxter. It will be a real eye sore! I am a Realtor with Coldwell Banker Gundaker at the Town & Country office and I live in Chesterfield. This type of car wash belongs on a busy street such as Manchester Rd, not a street like Clayton Rd. I'm really hoping that Chesterfield will deny this usage. I can recall when the residents of TC told the fire department that they could only put a station at Mason and Clayton Rd if it looked like it "had to have a traditional architectural look that belonged in TC". That firehouse is probably one of the most attractive ones I've ever seen.

Chesterfield should have the same standards as our neighbors in TC. I'm not against progress and I'm fine with a change, but it should look appealing....not UGLY!

Thank you,  
Joan Dewey  
2448 Baxton Way  
Chesterfield, MO

Subject: PZ 08-2017 Brite Worz rezoning

Dear Mr. Wyse

Please **DO NOT** rezone the corner of Baxter and Clayton Road for another Carwash.

I am more and more concerned with noise, water run off, lights, traffic, and cars using Woodfield streets for u turns and the disruption of our Chesterfield neighborhood.

The Wallis Company has stated they expect 300 cars to use the carwash on any given day! Why change the zoning and risk the devaluation of Woodfield property?

Reasons:

1. It was already re-zoned to make it a gas station--no need to change
2. As a property owner, and down hill from the site, we are already having water run off problems and the fix is somewhere around \$150,000 to \$200,000 to fix.  
**PLEASE DO NOT ADD TO THIS PROBLEM** just because someone wants to do something different than what they originally wanted it zoned for some time ago.
3. I don't believe there is any substantial tax upside that should merit your vote to redone.

I have heard the Mobile owners presentation and question many things they say regarding this property. It is partly a dream and a hope. **NOT A PLAN FOR SUCCESS!** It will effect our Woodfield community and Chesterfield with **NO** upside for anyone but them.

The planning statement on your website states, in effect, that the current zoning has already taken into consideration all elements of the commercial zoning and the effect on the residential area. **SO NO NEED TO CHANGE!**

Mr. Wise

Thanks for the opportunity to address the zoning committee last evening.

I don't think it is right to change the zoning "just because" the property owners want to do something different. They have approval for the MOBILE ON THE GO and there is no financial upside for Chesterfield. The thought that there will be a tax increase because of more retail business is lost with the decrease in value of the surrounding properties. I believe this is a FALSE assumption due to the fact there are over 20, yes twenty, Carwash facilities with in less than 5 miles.

Subject: Brits Works Carwash

After careful observation, I do not see how Briteworx Carwash is going to get the 300 a day car washes they stated they are hoping to get each day.

First off, HOPE is not a plan. We would be left with a monstrous building with no other obvious use. I would suggest the planning committee make the owner put up a bond that would cover the cost to destruct the useless Briteworx building when they fail.

I presume the zoning committee are doing their "due diligence" and have ordered a traffic evaluation to understand the traffic problem this will create at Baxter and Clayton Road.

I live immediately adjacent to this and would be listening to this noise daily, plus looking at the monstrosity.

PLEASE DO NOT REZONE this property, it is already zoned for what your committee approved, "On the Go" Mobile gas store.

No more noise or traffic congestion, please.

Subject: Another thought! Ref PZ 08-2017

To the Planning Representatives:

I am asking, and believing, that ALL planning representatives review and experience, the entrance and egress to the proposed plan for the Briteworx project. If, and when, you do this, you will understand the real traffic problems. Please take the time to try and get into the projected entrance and egress from ALL directions, not just a single direction. Enter from the North, the South, the East and the West. You will then experience the problems first hand.

I do not believe rezoning and allowing the Willis Company to change their plans from "Moble on the Run" to a Briteworx Carwash will increase, OR improve their business projection.

Please take the time to check out the suggested traffic patterns.

Thanks in advance.

Follow Up Flag: Follow up  
Flag Status: Flagged

Planning Committee and Council Representatives:

**NO** is an answer to the request by the Wallis Co to change things at the corner of Baxter Road and Clayton Road. If your answer to their request is already **YES**, do not read any more.

The Wallis Company has, in hand, the approval for a "Mobile on the Run" and hoping for a profitable business to ensue. However they changed their minds and now want a Briteworx carwash. I do not believe that the change will get them any further to their goal of profitability. If you have seen the current facility you will notice THEY have done nothing to enhance their own business. It has been run down and nothing about the current business is inviting for customers. It looks like it has already gone out of business. Over grown surroundings that look like a third world jungle, no up to date lights, no new paint, driveways need repair and in general the building and property are in disrepair. If you look across the street from them you will see a thriving business, clean and inviting. We, as citizen and residence of **the City of Chesterfield, should not responsible for their success or failure.**

I have reviewed the plan and see that there is a noise study that addresses some of the issues brought before the committee previously. There are a few questions I have regarding this study. 1. What happens if the study is proven not to be accurate. Is this particular Engineering group willing to put a 10 year bond on their study or will they give us an excuse of poor plants, the wall was not in place, the tunnel of noise was not as describe, etc. The study was done without the building, landscaping nor the Industrial motors (used for the blowers and conveyors), or hard cape, or people with the radios playing or the many people that would be talking or even the general noise from the many employees. 2. The study was based on the decibel weighing of the A weighing scale why wasn't the "C" factor also included? One is based on the tone sounds, like soft music turned up to 60 decibels and the other is based on peak noises like industrial sounds. Further if Wallis decides to sell, within a couple of years, Who becomes RESPONSIBLE for the OPPS! We all know very well that the "PLANS" were not going to come back to the Committee with any detrimental information. They are going to give us what they think are the right answers.

I am one of twelve (12) residents with in the immediate area. ARE PROPERTY IS GOING TO BE AFFECTED. According to our Mayor, Bob Nations and the Chesterfield website: "**We have peaceful residential neighborhoods**, bustling shopping areas, beautifully designed business establishments, and well laid out parks and pathways. Our City is served by two excellent school districts as well as several outstanding private schools. We seek resident involvement in community affairs, and continually promote transparency in municipal government matters."

Subject: Briteworx Carwash rezoning P Z 08-2017

My question to the Planning Commision is this. WHY REZONE?

There are over 20 Carwash facilities within 5 miles are less, with one of them belonging to the Willis Company. If this is not making it now, why would a new Carwash make it for them? And if it does not make it the Briteworx building is a single purpose building that does not fit not the surrounding architecture that Chesterfield has already approved.

That being said I also have reservations about the traffic, water runoff, noise to the current community on two sides of that corner, safety with regard to the entrance and egress of the facility, and the pedestrian activities because of the closeness of the schools and the pedestrian students.

IF they do not get the customers as they anticipate, what then, we REZONE again, remember it is a single purpose building made specifically for this Carwash.

The "Moble on the Run" you have already approved for the Willis Company, why chance? And that plan has a Carwash included.

Because of the many concerns and no desperate need of tax monies I ask for you to please NOT REZONE this property.

Thanks in advance

To: Cassandra Harashe <CHarashe@chesterfield.mo.us>  
Subject: [BULK] Car wash on Baxter and Clayton Road  
Importance: Low

Cassie,

I cannot believe that someone would even consider placing this large of a car wash at this location. I sell Real Estate in this area and everyone I speak to is against this.

We do not pay taxes to live in a nice area for some money hungry company to destroy it.

I am deeply saddened that this is even being consider. It will really make living in our area dreadful. The noise at all hours of the day and night. The traffic that is already bad at that corner. My concern is the safety of our children who are at that intersection daily during the school year. It will be an eye sore for the community that lives directly behind them.

For goodness sake, who even consider this should be asked to resign.

Please forward this email to the zoning commission.

Best Regards,

Jeanne M. Dolan

Subject: NO to Re-zoning NW corner of Clayton Rd. and Baxter Rd.

Please register my strong opposition to the re-zoning of the NW corner of the Clayton Rd./Baxter Rd. intersection to accommodate a Briteworx car wash. The radical increase in noise pollution and vehicular traffic that would result from this use of the site is completely out-of-character with the residential nature of the surrounding area. Clayton Road is NOT Manchester Road.

I urge the City of Chesterfield to continue to be a good neighbor to Ballwin residents and reject this re-zoning request. Thank you for voting responsibly on this matter.

To: Justin Wyse <JWyse@chesterfield.mo.us>; Cassandra Harashe <CHarashe@chesterfield.mo.us>  
Subject: BriteWorx Carwash -- Questions

I attended the City of Chesterfield's Planning Commission Meeting this evening (5-8-17). The meeting raised even more questions and concerns about this proposed re-zoning and development.

I am very interested to know if Metropolitan Sewer District (MSD) has reviewed the proposed BriteWorx site plan. The runoff from this massive carwash operation will be VERY significant -- not to mention that this runoff will be laced with numerous chemicals and surfactants. Where will this runoff go? Will it end up in our storm system? Our sewers? Will it end up in the many creeks that run through the area? What impact will these chemicals have on vegetation, wildlife, and the environment?

Another thing that concerns MSD is the amount of "hardscape" of the new construction compared to the existing structure(s) on the site. Obviously, more roof surface and pavement not only creates more runoff, but faster runoff. How does the amount of hardscape of the proposed carwash compare with that of the current Mobil structures -- and what impact will that increase have?

I am not a Chesterfield resident. I live in the Claymont subdivision (Ballwin) and the Clayton/Baxter intersection is part of my daily life. I am extremely disappointed that Chesterfield is giving serious consideration to this flawed proposal. I feel so sorry for the many Chesterfield residents that will be severely affected by this "monster" carwash (if approved). The noise, the lights, and the traffic generated by this business will cause property values to plummet.

Please vote NO on this re-zoning proposal. Thank you.

**Subject:** BRITEWORX CAR WASH

Dear Sir, my wife and I live in the WOODFIELD SUBDIVISION. A pud of 66 beautiful villas. I believe it was the first of its kind in chesterfield. our villas were built in 1977. drive on in it is cool, small quite etc. We feel the car wash is not good for our property values. peace of mind and traffic. THE AVERAGE AGE IN WOODFIELD IS PROBABLY IN THE SEVENTIES. WE are an older community. many vehicles pull in to our community and make a u turn. it can be dangerous. I ask people , how would you like a carwash in your back yard?? of course the answer is heck no. We visited the car wash in Florissant, terrible noise, traffic and not a pretty site. too junky for chesterfield. We moved to chesterfield 4 years ago from the city of SAINT LOUIS. We love the city but due to terrible planning, management etc. we moved. Please do not say yes to all developments like st. louis does. A car wash backing up to our unique neighborhood will affect our property values in a NEGATIVE WAY.. We want our values to stay high to help chesterfield. WOODFIELD has a disability ramp facing south to north crossing our entrance road going to our club house and swimming pool. Wheel chairs, walkers, young grand kids travel this path and with a car wash the traffic will create a hazard zone. Say no to this project. We probably need a gated community automatic gate at our entrance, if the car wash is approved THE WALLIS CO. should pay for and install the automatic gate at our entrance for safety . We are tax paying citizens and love chesterfield. We have plenty commercial tax base businesses to say no to WALLIS CO. WOULD YOU WANT IT IN YOUR BACK YARD? thank you for your time and patience, Again many of our neighbors are in their eighties and some ninety, iam one of the youngest at 65. Please help us. Anne and Mike Fagan, 2396 Baxton Way. 3144351786. many of the elderly folks cannot make the meeting tonite. i have talked to all of our neighbors, we do not want the car wash.

I am writing this letter in hopes that it is not too late to make a decision regarding the car wash that is planned for the corner of Baxter and Chesterfield.

My husband and I moved here 18 months ago. We downsized from the Wildwood area and chose this particular subdivision for it's quaint, and charming neighborhood. I was so surprised that Chesterfield would even consider putting a car was in this particular location. To tell you the truth....we would not have purchased here had we known. Chesterfield is such a wonderful place to live and raise children...a great community made up of all kinds of different families. I am hoping that Chesterfield will re-consider changes in the environment, with so much residential in the area..... I think there are already quite a few business along Clayton road that don't back up to residential, I hate to see this happen in this area.

As a realtor I am very much aware of how this effect home values in the area. Hoping you wanting the best for the city of Chesterfield, it's residents, and the community in general.

I am writing this letter in hopes that it is not too late to make a decision regarding the car wash that is planned for the corner of Baxter and Chesterfield.

My husband and I moved here 18 months ago. We downsized from the Wildwood area and chose this particular subdivision for it's quaint, and charming neighborhood. I was so surprised that Chesterfield would even consider putting a car was in this particular location. To tell you the truth....we would not have purchased here had we known. Chesterfield is such a wonderful place to live and raise children...a great community made up of all kinds of different families. I am hoping that Chesterfield will re-consider changes in the environment, with so much residential in the area..... I think there are already quite a few business along Clayton road that don't back up to residential, I hate to see this happen in this area.

As a realtor I am very much aware of how this effect home values in the area. Hoping you wanting the best for the city of Chesterfield, it's residents, and the community in general.

There is no way that a large brightly lit car wash belongs in this neighborhood. Let's be classy and search for an appropriate commercial business. We don't always have to jump on because they want to be here. I'm not even sure it is a great location for a car wash-there is one at 141 and Clayton which is a much more commercial intersection.

Please do not pass the revision to our zoning to allow this!

Sincerely,  
Pamela Freiberg

To: Cassandra Harashe <CHarashe@chesterfield.mo.us>  
Subject: Car wash at Baxter/Clayton

Cassie,

I am writing to let you know that I am strongly opposed to having a car wash facility of this size in the proposed location. Traffic congestion and noise in this area so close to houses/condo facility would be a total disaster to the neighborhood. This type of facility needs to be in the Valley, along Chesterfield Pkwy where there are many business and roads that can handle this type of traffic and noise that it will produce. It is important we keep business like restaurants, gym, cleaners etc within walking distances in our neighborhoods. How does a car wash of this size fit into a neighborhood???? I urge you and others involved in this decision to NOT ALLOW THIS BUSINESS TO LOCATE AT BAXTER/CLAYTON!!!

I would be happy to attend any meetings in regards to this project. Please let me know if any other meeting will be held.

Thank you,

Deborah Garbo, Chesterfield resident

Subject: BriteWorx Carwash at Clayton and Baxter

Dear Cassandra

I came to know about this project from a letter published in West magazine. I was not present in the May 8 meeting because I did not know about it. After reading the letter, I looked in the city website and did not find any pros, cons, impact on traffic, need, or any relevant analysis for this project. Hence this letter.

Since I live in the area, I thought I should let you know my thoughts on this project.

Traffic and safety issues:

1. The area, particularly the Clayton Road leading to Highway 141 and 40 is excessively crowded during rush hours
2. There are several schools nearby, so that adds to the traffic and extends the 'rush hour' significantly
3. Parkway High school entrance on Clayton and Clayton Baxter crossings were very accident prone which has been rectified recently.

Based on these, I feel adding more unstructured traffic flow due to this carwash, so close to both these spots, will be detrimental to the local traffic and traffic safety, and will cause problems for the students, residents, passersby, and the business patrons alike.

Business issue:

There are several gas stations and car washes within 2 miles radius of the spot, few much closer than that. Why do we need one more? What are the reasons that Chesterfield city is even considering this proposal?

Quality of life issue:

As it is, this area looks like a 100% commercial area with businesses surrounding it in all direction for some distance. I believe Chesterfield wants to develop a mixed community with proper balance of residential and commercial developments and also maintaining its "green" areas. Does this development fits into this plan?

Do we really need more "development" in this area?

City of Chesterfield recently approved a development **that destroyed a large tract of valuable and irreplaceable green land** only about a mile towards east on Clayton Road, at Clayton and Schoettler.

Unfortunately, I and quite a few other local residents I checked with, were not even aware of that proposal when it was approved. This approved development not only destroyed the tract of farming land with beautiful trees and flowers, it would add extra traffic to the existing traffic problem on Clayton Road as well as Schoettler Road.

I fail to understand the logic behind considering this new carwash development? I don't see any benefit for the residents, students, businesses, and passerby in this new proposal. What benefit city will get from it?

I wish I could find the answers somewhere and be corrected if I am making wrong assumption. Otherwise, I would sincerely request you, Planning commission, and city council to consider these points while debating this proposal. And I hope City would not approve it.

You can contact me if needed. Thanks a lot for your time,

Suchitra Ghosh

### **Stop Briteworx Carwash**

Clayton Road. These words conjure up a picture of a roadway that runs from Skinker at the City/County line to highway 100 in West County. It is one of only a few streets in the St. Louis area that carries a reputation of an address that one would be proud to be associated. It runs through County towns with the highest average income per household in the St. Louis area; Clayton, Ladue, Frontenac, Town & Country and Chesterfield. As one traverses this esteemed street we pass high end restaurants, and quick food eateries, hospitals, public and private schools, churches, strip malls, high-end plaza's, low profile gas stations, super markets, grocery stores, exercise centers, a private golf course, senior living facilities, fire stations, parks, modest and high priced homes, and yes car washes. All of these many varied type of edifices assume an architectural compatibility complementing the aura of Clayton Rd.

I ask that members of the Chesterfield Zoning Commission to just drive west from Woodsmill to Clarkson with a copy of the picture of the proposed Briteworx Carwash pasted on the passenger's side window. As you drive that fifteen/twenty minute route, consider if the Briteworx building fits the special "Clayton architectural integrity" that makes Clayton Rd, Clayton Rd.

Approving Briteworx Carwash for the Northwest corner of Clayton and Baxter will have significant impact on the level of sound, waste water, and architectural pollution. We have lived on the far northern end of the Woodfield subdivision for seventeen years. Our home may or may not be impacted by the sound or visual pollution caused by the Carwash. We will, however, be impacted by the lowering of the property value of our neighbor's homes at the southern end of the subdivision. Therefore our property value most likely will be impacted when comparables are sought when we or our kids sell our unit.

As citizens of Chesterfield, who have volunteered to serve your community, you have assumed an awesome responsibility to balance economic growth with the rights and protection of your Chesterfield fellow citizen's property values and rights. Approving Briteworx to be located on Clayton Rd and Baxter you will forfeit the rights and values of the residents of Woodfield.

Can the Commission explain why this or other proposed changes to the property at Clayton and Baxton is being allowed to encroach on a long standing undeveloped land and plant buffer between the existing Mobil gas station and the Woodfield property? Why not require that buffer to be maintained and let the developer reduce their plans to fit the existing commercial footprint?

William Shakespeare said: "What is the city but the people?" Chesterfield is the people. The people of Woodfield is the City of Chesterfield. The people oppose allowing Briteworx Carwash to be built on the corner of Baxter and Clayton Rd.

Thank you for your service and consideration.

Respectfully Submitted,

*Dick & Jo Ann*

Subject: Briteworx Carwash at the NW corner of Baxter and Clayton Road

>

>

>>

>>

>>

>>>

>>> This email concerns the zoning for the Briteworx Carwash at Baxter and Clayton roads.

>>> We live in Woodfield Homes complex and our home at 2456 Baxton Way is almost directly north and at a lower elevation than the proposed car wash.

>>> Our specific concerns, and they are considerable, related to:

>>> (1) water run off from, not only the car wash, but also the regrading of the property which includes replacing a large portion of the water retention area with concrete. This is very significant since, as we indicated, our home is at a lower elevation than the proposed car wash.

>>> (2) Since we are close to the proposed car wash we are very concerned about the noise levels. As we understand the plan, the car wash can stage almost 20 cars while waiting to get into the car wash, in addition, there could be another 20 cars at vacuum stations. This seems like an excessive number of cars in a residential area. And the noise created from that many cars being cleaned and vacuumed could be very significant for a residential area.

>> (3) What will the proposed car volume do to the air quality in the immediate area? This is a major concern since the car wash would reside in a residential area.

>> (4) Cars driving north on Baxter cannot turn left into the car wash, since there is a median strip, they proceed north until the first left turn so they can turn around and proceed to the car wash. That left turn is on to the private roads of Woodfield Homes. We already have an excessive number of motorists using Woodfield as a turnaround. The car wash will increase this problem.

>>>

>>> We sincerely hope our concerns are taken into consideration as you evaluate the rezoning of the property and deny the requested zoning change.

Sincerely,

>>>

July 20, 2017

Dear Mr. Wyse,

We are residents of Woodfield Homes which is located off Baxter Road just north of Clayton Road. We are writing you concerning the proposed rezoning of the parcel of land that is currently a Mobil gas station (at the corner of Clayton Road and Baxter Road) to a Briteworx Car Wash. In addition to the various reasons stated in the attached letter, we have some additional comments.

Our home is to the immediate north of the current Mobil station. Today, as we sit on our patio, we can hear the the current one lane car wash at the existing Mobile station. The noise is loud and can drown out a conversation. This is a one lane car wash with a single vacuum! The proposed BriteWorx car wash is a dedicated car wash that will have 15 vacuums, and a projected volume of 300 cars per day going through the drying blowers. We can hardly imagine the noise that will be created. Frankly, we suspect that our patio will be unusable!

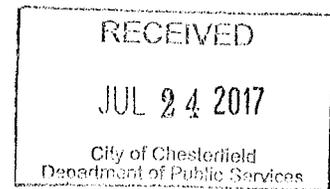

Again, in the attached letter are various reason why we oppose the change in zoning, but this projected zoning change will have profound affect on the useability of our patio and, in fact, our home in Chesterfield.

We hope that our concerns and the concerns of our neighbors at Woodfield will help you understand why we are opposed to the zoning change to allow the development of a Briteworx Car Wash at this location.

We respectfully request that you deny the zoning change.

A handwritten signature in black ink, appearing to read "Jane &amp; Robert Goldsmith". The signature is fluid and cursive.

Jane and Robert Goldsmith  
2456 Baxton Way  
Chesterfield, MO 63017

Dear Commissioners:

The purpose of this letter is to convey the position of the residents of Woodfield Subdivision to the proposed development of a Briteworx Carwash adjacent to our subdivision. Our subdivision consists of sixty-six units occupied by well-informed active residents. At our semi-monthly homeowners meeting on June 14, we thoroughly discussed the proposed Briteworx Carwash. As a result of those discussions, several of the owners went door to door to poll all the units in Woodfield. That poll resulted in signatures from 53 of the 66 units in opposition to the Briteworx proposal. No resident was in favor of the development. The balance of the residents were not available at the time of the polling. Consequently, the overwhelming conclusion is that the residents of Woodfield are against the petition to change the zoning at the corner of Baxter and Clayton Roads to allow the construction of a Briteworx Carwash.

The following are our predominant reasons for our opposition:

#### Noise

The proposed carwash will have 15 vacuum stations along with the large blowers for the tunnel car wash. The proposed hours for this operation are between 7am and 8 or 9 pm every day, including Sundays. Even if the vacuum motors are housed inside, when the vacuums are activated there will be an unreasonable disturbance created for the residents of Woodfield. We have not been informed of the decibel levels created by this operation. We respectfully request that the petitioner be required to provide an appropriate noise study to the Commission/City, and provide us with a copy. We are confident that such a study will clearly show that the proposed carwash will create unreasonable noise levels each and every day of the year.

#### Water Run Off

We are extremely concerned that additional water run off will add to an already existing problem within Woodfield. We are aware that MSD will have input with respect to both stormwater and wastewater issues relating to the development. However, we continue to believe that the development will generate excess storm water, and that the volume of wash water, combined with carwash chemicals, (detergents, waxes and protectants) will adversely affect the sanitary sewer system in our area. Additional air pollution will be created since the proposed 300 cars/day will be running their engines while they go through the carwash tunnel versus turning the engine off when refueling.

#### Traffic

Baxter Road and Clayton Road are both part of the County Arterial Road System (ARS). The proposed car wash, in the northwest quadrant of the intersection of these two arterials, will undoubtedly add to this traffic at this congested intersection, especially at certain times of the day, notwithstanding petitioner's' claim that there will be fewer visits to the car wash than to the gas station/convenience store.

It is our firm position that the majority of the estimated 300 cars per day will be additive

because those customers will view the car wash as a destination, while customers of the gas station/convenience store are stopping because it is just that, a convenience to those already passing the gas station/convenience store.

The final traffic issue which is of great concern to Woodfield residents is that, because of the medians on Clayton and Baxter Roads, carwash customers travelling North on Baxter or East on Clayton, will turn into Woodfield to make a U turn and proceed south on Baxter to enter the carwash. Woodfield streets are private and maintained by the Homeowners Association. In addition to the obvious danger to Woodfield residents entering and exiting our subdivision by these U turn movements, all increased maintenance costs, such as curb repairs and sign replacements, will be borne by Woodfield residents.

#### Harmony with Surrounding Area

The Briteworx building as shown on the Chesterfield submittal and the existing building in Florissant, do not blend well with the surrounding buildings and residences. The newer buildings, such as Walgreens and the Homestead Mortgage company are brown/beige brick with subdued signage (these were issues addressed with Walgreens at the time that development was proposed). The Briteworx carwash is white with a brilliant blue sign and multiple lights.

Also, the sheer size of the Briteworx unit at 27 feet placed on top of a 22 foot retaining wall will dwarf the adjoining homes in Woodfield. All Woodfield residents will be severely impacted by such an intrusive disproportional structure.

#### History

Although we are aware that every zoning petition must be considered on its own merits, the Woodfield residents cannot help but wonder why they were required to expend so much time and effort on the rezoning of this parcel in 2008-2009, only to have to again protect their subdivision in 2017. It is our firm position that a use such as a Mobil-on-the-Run is a much more appropriate use of the space than a single use carwash. There would be: less noise, less runoff, less chemicals, less traffic, less disturbance to the neighborhood and more continuity with the surrounding developments.

#### Conclusion

For all the reasons stated above, the residents of Woodfield respectfully request that the Chesterfield Planning Commission deny the request to allow the Briteworx carwash development at the northwest quadrant of Clayton and Baxter Roads.

I am a resident of the Woodfield Community. I am opposed to a Brite Wox Car Washery being built at the corner of Baxter and Clayton Road.

Hi Cassie,

I'd like to express my concern about the Briteworx Carwash going in at Clayton and Baxter Roads. I live in Claymont subdivision and it will directly affect our way of life. This is not the place for this business! The traffic this will generate alone, will negatively affect this neighborhood. Please do everything in your power to make sure this business does not go in at that location.

Please forward our concerns to the voting members regarding the potential for that huge car wash to be built at the intersection of Baxter & Clayton Roads. This is a residential neighborhood with numerous children, cyclists, & runners crossing that intersection each day. How anyone could even consider erecting that car wash there is beyond belief. Please give thorough consideration to the increased traffic volume to an intersection that is already backed up in both morning & evening traffic. Also please give consideration to the noise volume with the adjacent properties on three sides being residences. Your citizens are counting on you to do the right thing & reject this proposal in this residential area. Thank you.

Dear Jeff,

Thank you very much for bringing this my and others' attention. I think this issue may be deeply concerning for the residents of Chesterton Lane, particularly those of us living on the side facing the proposed carwash. I am personally strongly against it for similar reasons that have already been brought up: increased noise and street traffic. I think this project is fundamentally unfit for our generally residential area and it could have direct adverse impact on our quality of life and possibly also residential property values. Further, there are already multiple carwash facilities nearby (in the specific areas that are more suited for such a commercial development).  
I will appreciate any more information.

best regards,

Daniel Hawiger

Dear Residents-

FYI: it was brought to my attention this morning that a proposal is currently before the Chesterfield Zoning Commission to approve the building of a BriteWorX Carwash on the northwest corner of Baxter and Clayton (where the Wallis Mobil gas station is currently). The developers project that 300 cars will patronize this business every day.

Of the many concerns voiced in the link to the letter below is the potential traffic from exiting at the neck down on Westbound Clayton from two lanes to one just prior to our street entrance.

Here is more info on the proposal and a photo: <https://westnewsmagazine.com/2017/05/24/80959/save-clayton-road>

We missed the Public Hearing which was held on Monday, May 8, 2017. Attached are the minutes of this meeting- there were 13 speakers in opposition in attendance.

I have cc'd Cassandra Harashe from the City of Chesterfield. Cassandra, can you tell our Chesterton Lane residents any more than what's here? What is the current status? Is there another public hearing scheduled to be held?

Thanks

Jeff

Hello,

There are many Claymont residents in that are extremely worried about the possible build of Briteworx Carwash in the intersection of Baxter and Clayton. Please take into considerations that Claymont is a very highly sought out neighborhood because of the safe and nurturing environment that many of us have chosen to raise our kids in. If this goes through it will bring in more traffic and many students from West Middle and West high, walk, ride bikes, and drive to and from the schools. Please do not add congestion and possible hazard to our neighborhood!

Thank you!

Subject: Possible Briteworx Carwash

Hello,

There are many Claymont residents in that are extremely worried about the possible build of Briteworx Carwash in the intersection of Baxter and Clayton. Please take into considerations that Claymont is a very highly sought out neighborhood because of the safe and nurturing environment

that many of us have chosen to raise our kids in. If this goes through it will bring in more traffic and many students from West Middle and West high, walk, ride bikes, and drive to and from the schools. Please do not add congestion and possible hazard to our neighborhood!

Thank you!

~Bo

Subject: Briteworx Car Wash Proposal

To who it may concern;

This is to reaffirm our opinion, along with many others, that the proposed car wash on corner of Baxter and Clayton is not welcomed nor condoned by this community at large. The proximity to neighborhoods that value their peace and have chosen to pay to live where there isn't this kind of traffic monstrosity and the noise pollution to endanger the children going to nearby schools is not acceptable. Please listen to your community members that are voicing concerns so that it is not a mystery when the whole area is downgraded by the pollution this will bring to our area.

Thanks  
~Herrmann Family

Cassie, My wife and I live in Claymont and travel though the intersection multiple times daily. It is a busy intersection now with cars coming through very fast from all directions. A car wash with cars quickly coming out so closely to the intersection will surely result in accidents and police attention. Also, a busy car wash is totally inappropriate so close to our beautiful residential neighborhood!!!!!!! Stu & Linda Hines

I live off of Baxter Road in Chesterfield. I am concerned about the car wash zoning for Baxter and Clayton Road. This area is already congested with traffic. When the school buses let out of parkway west middle school it's really bad. I'm concerned with the noise, the water run off, the light pollution and most of all the horrific traffic issue. When I look at other car wash businesses like this one around town they look trashy. I do not want this in my neighborhood. I appreciate being heard and your time reading is concerned.

My name is Pam January. I live close to Parkway west middle school off Baxter Road. When I heard that the city of Chesterfield was considering approval of a car wash at Baxter and Clayton I couldn't believe it!

This will definitely bring down the value of the homes in the area. The traffic and the noise of these large car washes is horrific. Shame on the city for being greedy and not thinking of the residence in the area. These large car washes look trashy and they do not bring any value to the people in the area or the property value. Does Kirkwood's residential area have carwashes, NO!!what about Frontenac?CLAYTON residential area?Town and country? Who is on this Board looking to downgrade the city of Chesterfield?

There's a water Way less than 2 miles away and two gas stations with carwashes already on that corner. And two more car washes right off of Manchester Road. And not busy!!

The City of Chesterfield priority should concentrate on the quality of life for its citizens and of the value of their property...Not greed

Thank you for hearing me and your time.

Subject: NO carwash at Baxter and Clayton Rd

As a neighbor in Ballwin, just down from this location....I do NOT wish to see ANY large monstrosity at the corner of Baxter Rd and Clayton....! WHY CAN'T YOU LEAVE THE DECISION TO THE MAJORITY OF THE PEOPLE WHO HAVE EXPRESSED, "NO" TO THIS PROPOSAL???? It's ugly and we do NOT need any more congestion at that corner, nor do we need any more noise or water runoff or trash or vandals being invited into the area to vandalize or rob patrons....! I'm sick and tired of watching the "dollar" override the peoples' choice! Leave our smaller city areas ALONE! This is why we moved to this location to begin with!

Good Morning,

I've been a resident in the area for 13 years. I'm concerned with the car wash being proposed on Clayton/Baxter. Everyone is right, something of that size doesn't belong in a residential area. If you stand at that intersection, you can see a home at every angle. What's in that intersection now isn't a nuisance, but the second you add 15 vacuum cleaners and a car wash large in size, is the second you disturb the peace. I know you have an answer for everything, but I don't think you travel Clayton road between the hours of 7am and 6pm, because if you did, you'd soon realize the car wash would be a problem. The traffic produced by Parkway West is enough, and it takes me forever and a day to get back home from 141. Move the car wash elsewhere, please, for the sake of the people. Money can be made elsewhere, where it doesn't disturb the peace and sanity.

Thank you,  
Taylor Klein

Subject: Disapproval of Briteworx Carwash Construction

To: Cassie Harashe & Justine Wyse

As a resident of the adjacent area to Baxter & Clayton, I would like to go on record as having substantial concern regarding the rezoning request for Briteworx Carwash. I would not want this entity to be located at Baxter & Clayton. The traffic congestion is already very bad on both Clayton and Baxter. More would absolutely not be desirable--'the prediction of 300 cars per day'. Moreover, the structure and architecture of the building does not, in any way, fit into the environment surrounding it. It is extremely large and inconsistent with the suburban surroundings in the area. I would seriously request that this proposal be rejected.

Thank you for your time,

Subject: carwash

Hello Cassie --

I am a resident of Woodfield and I attended the meeting Monday evening regarding the proposed carwash to be built at Clayton and Baxter Roads.

I am most definitely opposed to such a structure. I have seen the photos and studied the plans. It appears gaudy and not at all in keeping with the surrounding structures and the general Chesterfield landscape. Aside from it being an eyesore, it also raises concerns regarding noise, lights, water run-off, chemicals in the atmosphere, devaluation of surrounding residential properties etc.

The Wallis company has estimated -- or perhaps hopes for -- approximately 300 cars per day using the facility. There is the matter of increased traffic on both roads and perhaps even danger for the children who walk home from Parkway West High School and Middle School. At the meeting the Wallis rep stated the carwash would cease operation at 8 PM each day, but then several minutes later he stated 9 PM. Such an open-ended plan causes additional concern - if granted permission to erect this monstrosity would the operating hours be extended to 10, 11 or even midnight if deemed lucrative? What, if any, restrictions would be placed on changing the hours of operation?

I sincerely hope that some of the members of the zoning commission visit the Lindbergh site and speak with the Florissant official about the problems they have experienced, and ultimately vote against allowing the Briteworx carwash to be erected on this parcel of land. Please pass this email along to the commission.

Thank you

Subject: Hi Cassie please forward to the members of zoning committee

Hello my name is Angelo ramos and I live in the Clayton And baxter road area. I'm also close to where they are attempting to get approval to build a monster of a car wash in a location in where it is not needed to be at.

I feel this car wash will not only be an eye sore to the area it is planning to be located in a location which will Cause great disruption of our neighborhood aesthetic, noise and traffic.

I would like to know why is the Wallis company trying to foist this garish tunnel carwash with 15 self service vacuums on our neighborhood? This car wash belongs in an area where there is more road lanes, commercial area to support the space needed for this and Can support this type of business (more specifically Manchester road)

Please pass on to zoning committee with my concerns and unhappiness of the idea of this being built.

Thank you

Subject: Briteworx Carwash

Cassie:

Just a short follow up note re: the Briteworx Carwash proposed at the Mobil Gas Station at Clayton and Baxter roads. Several years ago when I was president of Woodfield Homes, we strongly opposed the addition of a larger car wash at this location for all of the reasons discussed at the Council meeting last Monday. The council did not approve the new carwash.

The new proposal is much more of a concern. The owners anticipate 300 cars using the car wash daily. That means more noise, more water run off, more lights, and just as important, more cars using the entry into Woodfield as a turnaround to get to the Mobil Station. This has caused damage to the grass and sod at our entry that we have to replace. All of these issues will have a negative effect on our property values.

Cassie, will you please forward this note to the members of the zoning committee.

Thank you, Dan Reilly

What an ugly addition to our neighborhood! The estimate of 300 cars per day would make this intersection even more dangerous than it already is. The traffic situation in the morning and evening is already overloaded! The water run off, noise, light and ugly building is enough for me to be against it. It just adds to all of the pollution! We already have Waterway at Clayton and 141 so it seems there really is not need of another car wash. At least Waterway is in an area of already existing businesses and does not interfere with residential property.

The Clayton and Baxter location is right in front of homes and would really affect property values. There really should be a more acceptable use of this lot. The gas station is bad enough!

Subject: Briteworx carwash

Please reject this proposed carwash. It is wrong for this area. The noise from the vacuums will be awful, we love to listen to the birds in our common ground and the carwash would be only 500 yards from us! Furthermore, Clayton Road is not the place for this kind of additional traffic. It belongs on an already noisy road like Manchester which can handle the noise and traffic. Please REJECT!

I am concerned that the proposed carwash that is proposed to replace the Mobil Station is not compatible with the location.

My concerns are:

Design

Traffic impact

Hours of operation

Sincerely,  
Sharron Rohn

Dear Cassie

Please forward to the zoning commission:

Please do not rezone for the car wash. This is not an appropriate for a family community. We do not need the extra traffic and the loud noise of the huge dryers.

BAD IDEA. We do not need anything like this at the corner of Baxter and Clayton. Looked at the one up North and it was unforgettable. This type of Car Wash would not fit in with the surrounding scenery plus I can imagine all kinds of noise and unwanted activity that will impair progress and create congestion.

I backup to the condo's behind Walgreens and I hear the trash trucks dumping the dumpster there. I also have extreme and excessive runoff from the condos because their extremely big and steep rooftops drain right next to their PVC fence instead of using a drainage system to drain to their useless retention pond.

Chesterfield has a development problem, on many levels letting developers get away with "minimum code". Look at the shoddy Schoettler and Clayton road development. It's an ugly eye sore and will cause huge damage to the homes adjacent on the north border if downspouts are not on a system to the retention ponds.

That carwash will not blend in with the soft architecture that is along Clayton road nearby and the vacuum will easily be noticed from surrounding households, plus the rush hour traffic from two to one lanes on Clayton westbound will be affected.

### Stop Britworx Carwash

I have asked my neighbor, Dick Goldbaum, to send the following as I do not have a computer or e-mail.

I have lived at the Northern end of Woodfield subdivision for 29 years. I have seen Baxter go from a two lane country road to a four lane street. I have seen the land on either side of Clayton Rd be developed into a well designed compatible mixture of residential, commercial, schools and churches in keeping with each other. The picture I was shown of the carwash was both shocking and disappointing. Not only will the building be noisy and a traffic problem, but the visual pollution will be even more disturbing.

Please do not approve this project. I have seen too many cars pull out of the Mobil station onto Baxter on the southbound lanes and head north and swerve into the north bound lanes just missing a north bound car that had just turned onto Baxter from Clayton. Our subdivision has had to fix and replace No Parking signs and poles and mail boxes because they were knocked over by cars driven by non-residents who had turned into Baxton Way to turn around and head south to get to the Mobil station. If the projections of 300 cars a day are accurate, I can predict that either a pedestrian, bike rider or a car will be hit by someone coming out of or going into the carwash. We have been lucky so far.

Please don't approve Briteworx Carwash for Clayton and Baxton.

Thank you for your kind attention and consideration.

I am opposed to the rezoning of property at Baxter & Clayton Roads for the building of a Briteworx carwash. The 15 self service vacuums will be noisy & the 27 ft. high tower is unsightly. This is a mostly residential area near a middle school with an already high traffic volume. Please do not rezone this corner for another intrusive businesses.

Thank you.

I'm against the car wash at Baxter and Clayton as there is already a lot of traffic congestion now I can not imagine what a nightmare this would be also on Baxter Road near the library there is 364 apartments under construction which will have some impact on the traffic anything I could do to help stop this just let me know.

I live off Brookmont Lake Court and everyday I go by this intersection to work and every night I come home and pass it. Between 4-6pm that intersection is so BUSY. The line of cars backs up because it goes from a 4 lane road to a 2 lane road. I can't imagine a huge car wash there. That will gum up the traffic even MORE! The car wash would only bring us more traffic congestion, NOISE and light pollution. AND there is a WATERWAY Carwash at the intersection of Hwy 141 and Clayton road, and that's probably only a mile plus away! It's just a very bad idea!!! And I do not even know what that would do to shift of the water run off there.

Thank you for listening to your residents and not allowing this....

Dear Ms Harashe,

I am a resident of Baxter Village Condos. That is across the street from the site of the proposed new car wash at the intersection of Baxter and Clayton Roads.

I believe the attached letter to the editor that was in a recent edition of the West County Magazine expresses my thoughts exactly.

Residents along Clayton and Baxter Roads do NOT want this car wash! Traffic along Baxter Road is bad enough without adding an additional 300 cars per day.

This area currently has a good mix of commercial and residential properties. I firmly believe if you allow the car wash to be built, you will turn Clayton Road into becoming just like Manchester Road.

PLEASE do not let this happen!

Sincerely,

Martha Simpson

Dear Ms. Harashe:

Hello. We are residents of Park Huntington/Claymont subdivision and we're concerned about the proposed construction of a Briteworx Car Wash at the intersection of Baxter & Clayton. With so many car washes sprinkled all over both Manchester and Clarkson, why do we need such a monstrosity on Clayton?? There's already 2 car washes (Not counting the Mobil since I believe that is the site for the proposed new one..), one at the Phillips & the one at the Shell station just East of the intersection on Clayton.

Then there's also the increase in traffic (Clayton especially gets bottlenecked NOW! What happens when we increase the traffic? Worse rush-hour traffic, that's what. Add lanes - it won't help.) & more noise, worse light pollution, more toxic run-off waste, increased traffic in general (off-hours) and more!

PLEASE don't do this! Even the typical designs of these places don't fit or blend in with the neighborhood.

They look garrish. A 27' tower?! Seriously?? No. Just no. Please.

As mentioned earlier, something like this belongs on Manchester or Clarkson, if at all.

Thank you for taking the time to read this & letting us voice our concerns.

Best Regards,

Gina & Peter Staehle

Subject: Bright works car wash

Hello Cassie,

I attended the zoning meeting last week and wanted to communicate my position to you and the rest of the board that I object to re-zoning to allow Brightworks and the Wallis Co. to build a full service car wash on the corner of Clayton and Baxter roads where the existing Mobil station is.

As a Woodfield homeowner, I am concerned about the noise pollution that such a business would bring into our lovely residential neighborhood. Additionally there will be traffic issues with cars waiting to be washed and people doing U-turns and also using Woodfield's private streets to access the car wash. I can't imagine that Chesterfield would want to accommodate such a negative addition to its city! I am sure Chesterfield does not want to damage its reputation as one of the nicest places in the area to live.

Please forward this email to the members of the zoning committee before they vote on the issue. Thank you.

Sincerely,

Elizabeth Wright

To: Cassandra Harashe <CHarashe@chesterfield.mo.us>  
Subject: Brite WorX Car Wash Illadvised

To The Chesterfield Zoning Commission:

The zoning request for the construction of a Brite WorX Car Wash at the intersection of Clayton Road and Baxter Road should be denied. The garish structure and design of the contemplated installation is not in accord with the appearance and character of the area. Further, an additional car wash is certainly not needed in view of the rollover wash facilities available in both the Phillips and Shell service stations nearby, in view of the Waterway nearby at the intersection of Clayton Road and Old Woods Mill, and in view of various similar car wash facilities within a few miles on Manchester Road. The proposal should be denied to prevent a nuisance, an eyesore, and an unneeded business that will be difficult to remove when it fails.

Sincerely,  
Bert Wunderlich

To: Cassandra Harashe <CHarashe@chesterfield.mo.us>  
Subject: Briteworx

Dear Cassie,

I'm wide-eyed and slightly horrified at the possibility of the BriteWorx at Baxter and Clayton. Their architecture is obviously garish to attract attention, but doesn't seem to fit with our neighborhood! And if you've ever driven that intersection (between West Middle School and West High School), you know there are already too many cars, and many children walking, biking, and running cross country!

Please reconsider allowing this business to proceed with plans at an intersection that is already over-crowded with Walgreens customers, Clayton west/eastbound traffic, two gas stations, and my children.

Thanks for the work that you do to thoughtfully regulate development and protect the value of our city.

Sincerely,  
Carol Young

Subject: Car Wash

Hi

My name is Brenda Zilka and I just received an email stating what the rezoning signs are for at Baxter and Clayton. If the information that I received is correct, it would appear that the size and the style of the proposed car wash would not blend in with out pastoral suburban area.

Not against a car wash, per se, but it definitely should blend instead of being jammed on a lot with garish design.

Thanks for letting me comment to you.

All the best,

*Brenda Zilka*
