Public Works/Parks

Councilmember Alan Politte, Chairperson of the Public Works/Parks Committee, reported that the T.I.F. Commission has requested that the scope of work for the Chesterfield Valley Master Plan being prepared by Development Strategies be amended to include obtaining tax base information for the Chesterfield Mall area. This information would be used to determine whether or not the mall area should be included in the Tax Increment Finance District for the Chesterfield Valley. The cost of this amended scope of work would not exceed \$2,000. It was noted that this revision to the scope of work had been reviewed and endorsed by the Valley Master Development Study Committee. Councilmember Politte stated that this issue was tabled in the Work Session.

Councilmember Politte next recognized Councilmember Hrabko who reported on the detention facilities in Country Place Subdivision. Councilmember Hrabko reported that the residents of Country Place Subdivision were requesting that the City reimburse their costs in making repairs to the outfall structure of the large lake within their subdivision. The residents feel that the City released the escrows prematurely. City Staff and Ward IV Councilmembers met with the Trustees of Country Place in December 1991 and discussed the possibility of funding a portion of the repairs contingent upon the Trustees executing an agreement which would hold the City harmless and release the City from any future obligations toward this lake. The Trustees had not communicated with City Staff since that meeting. City Attorney Beach did not feel the City had any further obligation to fund or make repairs to the lake. Councilmember Hrabko stated that the Committee recommends City Council approve the amount of \$6,492.50 to be reimbursed to the Trustees of Country Place Subdivision for 50% of the cost of repairs to the lake. The Trustees have agreed to sign a hold harmless agreement. A motion was made by Councilmember Hrabko, seconded by Councilmember Tilley, to approve reimbursement of \$6,492.50 (proceeds to come from the Stormwater Fund) to the Trustees of Country Place for repair of the detention lake and that a hold harmless agreement be signed by the Trustees to release the City of Chesterfield from future maintenance and liability. Councilmember Politte next reported that in the Work Session City Council voted to adopt certain criteria for proposed parkland and to pursue talks with owners of the proposed property. Councilmember Hilbert emphasized that the Parks Steering Committee is comprised of members from the Parks, Recreation and Arts Citizens Advisory Committee and three Councilmembers, as well as the Mayor and City Administrator.

Councilmember Politte next reported that in the Work Session the Council voted to modify the policy with regard to the issuance of tickets and towing during the snow removal process. The modified policy would be to issue warning tickets on a City-wide basis, ticket only vehicles parked on designated snow routes, and tow vehicles only as a last resort with the Public Works Supervisor on-duty making the determination.

Councilmember Hurt requested that Staff place on the agenda for the next Public Works/Parks Committee meeting discussion with regard to costs being made available to asphalt overlay streets with a designation of #6 or less. NEW BUSINESS

Councilmember Hrabko reported that Sverdrup Corporation informed the City of Chesterfield that

Prudential is interested in their property on Highway 40, near Timberlake Manor Parkway, Conway Road and inquired as to incentives the City might offer. Prudential desires to build 300,000 sq. ft. of office space and will employ 1,500 employees. The City of Chesterfield is in competition, at the present time, with other municipalities. Sverdrup personnel will visit the Prudential headquarters next week and the Chesterfield Development Corporation has recommended that the City provide an incentive to send along with the Sverdrup personnel to attract this company to the City. Councilmember Hrabko proposed an Inducement Resolution #154 that does not bind the City, but makes a show of good faith that the City will consider a T.I.F. for that particular site. A motion was made by Councilmember Hrabko, seconded by Councilmember Levinson, to adopt Inducement Resolution #154. A voice vote was taken with a unanimous affirmative result (8 - 0) and the motion was declared passed. Councilmember Hrabko stated that City Council, by adoption of Inducement Resolution #154, assures Sverdrup Corporation that the City of Chesterfield will work with them and Prudential to get this development expedited as quickly as possible.
