Mr. Mark Andrews, who resides at 11 Chesterfield Lakes, questioned as to whether or not studies had been done with regard to riverboat gambling and, if so, were the results available to the public. It was noted that the Chesterfield Community Development Corporation was involved in the work pertaining to riverboat gambling, but that no studies had been prepared. If Proposition 1 fails, Mr. Andrews requested Council honor the constituents' desire and not place this issue on the ballot in the near future.

REPORT OF THE CITY ADMINISTRATOR

City Administrator Mike Herring reviewed the three (3) issues which have been placed on the ballot in the November 2 election.

Mr. Herring next reported that bid results have been received with regard to the design and construction of the Old Bonhomme Creek levee outfall structure near Long Road. Even though bids had been mailed to a list of contractors and publicly advertised, only one bid was received. Mulligan Construction, Inc. submitted a bid in the amount of \$214,300 to construct the outfall structure. St. Louis County has agreed to reimburse the City for as much as \$201,153.00 from impact fees collected. St. Louis County currently has \$123,000, which would be immediately available. The balance would have to be covered by the City of Chesterfield initially. The cost of the engineering work by Sverdrup Corporation is \$20,000, the cost of the flood gates is \$46,250, and the cost of construction is \$214,300. As a result, the total cost of this project (\$280,550) exceeds County funds available, totaling \$201,153.00. St. Louis County has reviewed and approved the bid by Mulligan Construction, Inc. In addition, they approved Sverdrup Corporation to do the engineering design and agreed to apply for funding support from the State of Missouri Stormwater Grant Program, which if successful, would cover the cost of the override of approximately \$78,000. Discussion

ensued. Councilmember Levinson expressed concern that only one bid was received. Mr. Herring explained that, according to Mr. Bill Hawn, there seems to be much work available in the area due to the flood disaster. A motion was made by Councilmember Hrabko, seconded by Councilmember Clarke, to award the contract to Mulligan Construction, Inc. in the amount of \$214,300 for the construction of the outfall structure. A voice vote was taken with a unanimous affirmative result and the motion was declared passed.

Mr. Herring next reported as information that recently Southwestern Bell has implemented a rate increase in the amount of \$3.65/line per residence and \$6.65/line for businesses. This rate increase was approved by the Public Service Commission and does expand the toll-free dialing area for all Chesterfield residents/businesses. According to the Southwestern Bell representative, this rate increase applies to all Chesterfield exchanges.

Mr. Herring stated that it appears as though the \$535,000 grant award from the State Division of Economic Development can be modified to cover 100% of the cost of the recertification of the levee. Mr. Herring explained that Resolution #145 will need to be adopted to officially authorize him to seek amendment of the \$535,000 grant, to cover the estimated \$130,000 cost for recertification of the levee. A motion was made by Councilmember Levinson, seconded by Councilmember Greenwood, to adopt Resolution #145. A voice vote was taken with a unanimous affirmative result and the motion was declared passed.
