The City of St. Louis was issued their Preliminary Maps on 11/13/2019. We're continuing to work closely with St. Louis County's communities to address comments for on-going local projects, especially pertaining to the Deer Creek Watershed. The next milestone for St. Louis County is to issue their preliminary maps which is targeted for 5/23/2024. At that time, we'll also reissue the preliminary maps for the City of St. Louis.

After the maps are distributed, we'll reach out to set up the Consultation Coordination Officer (CCO) meeting. During this meeting, we will discuss the revised flood hazard information and give community officials and floodplain administrators an opportunity to provide us with feedback. Please reach out to us if you have any questions.
